

# We support our partners' growth

The DOMO Sports & Leisure Grass team is young and dynamic and has one passion: artificial grass! We work constantly to improve our products and to strive for perfection. The result is an optimal artificial grass terrain that absolutely highlights the best qualities of the players and the club.

## The whole year long

DOMO Sports Grass provides a perfect football pitch that can be played on continuously, under all conditions.

Your football pitch:

- does not get waterlogged, thanks to good drainage;
- does not have bald patches;
- is extremely wear-resistant;
- is easy to maintain: mowing, watering and drawing chalk lines belong to the past;
- ...

## Maximum playing comfort

DOMO Sports Grass products are among the most innovative on the market. In developing our high-quality artificial grass systems extreme care was paid to optimising ball/surface and player/surface interaction: ball roll, ball bounce, shock absorption, rotational resistance, grip and foot stability are some of the parameters that were kept under close scrutiny. Thanks to the correct shock absorption and foot stability, for example, players have less muscular pain after a match and the risk of injuries is also reduced. There is no question about burn or scrape injuries as a result from sliding. In short, DOMO provides more comfort and safety on the football pitch.

## FIFA certificates

Worldwide DOMO Partners have installed various "FIFA 2Star and FIFA 1Star Recommended" pitches.

# DOMO Sports Grass in a nutshell

The business unit DOMO Sports & Leisure Grass is part of DOMO Industries and develops, produces and sells a wide range of artificial grass products for sports and recreation.

The power of DOMO lies in the vertical integration of the company structure that allows it to work in constantly innovative ways at every level. DOMO Sports Grass advanced products are also among the best on the market, meeting all applicable standards as well as the additional requirements of national and international sports associations and federations.

# We make innovation grow

DOMO Sports grass is the result of intensive research, knowledge and experience built up over the years. Thanks to its modern production unit, permanent quality controls and fully equipped laboratory, DOMO Sports Grass products are considered to be among the best on the artificial grass market.

## From raw material to artificial grass

DOMO is the only artificial grass supplier in the world that controls in-house the entire process from crude oil as its raw material to artificial grass as the end product. This unique vertical structure gives DOMO the ability to innovate in terms of products and processes, at every stage of the production cycle. This enables DOMO to remain a pioneer in artificial grass products.

## Solid construction engineering

DOMO Sports Grass offers an extensive range of artificial grass products that can be categorised by sport. Football is one of those sports.

It is essential when installing the perfect football pitch to select the correct base. It must be stable, porous and frost-resistant, and is generally composed of several layers. DOMO offers you advice and support in the selection and construction of the sub base.

## Full service solution

The integrated service from DOMO includes:

- production and distribution of artificial grass products;
- support in the selection and construction of the sub base;
- support in laying and maintaining the artificial grass.

# We make performance grow

DOMO Sports Grass is the ideal base for professional and amateur football clubs alike. Wind, rain, sun, intensive use... Our artificial grass stays in outstanding condition under all circumstances, without you having to worry about it. However great or modest your football talent, nothing now stands in the way of producing your top performance. To victory, together with DOMO!
